Career Objective

An organized and motivated employee capable of time management and working under pressure in all environments. I am dedicated to getting an opportunity where I can maximize my potential and significantly contribute to the organization's growth.

Education

Jai Shriram Engineering College

Bachelor of Engineering in Computer Science and Engineering

Cumulative GPA: 8.06*

Expected May 2026

Tirupur, Tamil Nadu, India

Universal Matric Hr. Sec School

Higher Secondary Certificate (HSC)

Percentage: 83.10%

2021 - 2022

Tamil Nadu, India

Universal Matric Hr. Sec School

Secondary School Leaving Certificate (SSLC)

2019 - 2020

Tamil Nadu, India

Technical Skills

Programming Languages/Concepts: Python(Basics), Java, Object-Oriented Programming

Frontend: HTML, CSS , Java Script, React Js

Backend & Database: REAT APIs, Spring Boot , MongoDB, MYSQL

Tools: Git/GitHub, MongoDB Compass, Postman API , Jupyter notebook

Internships Experience

TechInnoura Pvt Ltd (Child: Encipher Health)

Software Developer Intern

2026

Chennai, Tamil Nadu

- * Contributed to the end-to-end development of a healthcare web application by designing responsive interfaces and integrating with backend REST APIs for seamless data flow .
- * Collaborated within a cross-functional team using Git/GitHub, while debugging and optimizing application performance, scalability, and user experience .
- * Improved application performance and optimized page load efficiency while implementing Redux for state management and handling API communication through structured request-response (payload) workflows .

MindBridges

Web Development Trainee

2025

Chennai, Tamil Nadu

- * Developed responsive web pages and implemented interactive UI components as part of hands-on assignments
- * Completed advanced web development training covering React concepts, Redux for state management, API integration (fetch/REST), and building scalable, dynamic web applications using modern best practices .

KGISL Micro-college

Front-end Development Trainee

2024

Coimbatore, Tamil Nadu

- * Developed responsive front-end applications using HTML, CSS, and JavaScript while applying industry-standard development

- * Gained hands-on experience in full-stack development by building basic web applications and understanding end-to-end system architecture .

Projects

Cogent-AM UI Service (Healthcare Claims Management System –Next.js , Java , mongoDB , REST APIs

- Contributed to the development of a healthcare insurance application by building client-side modules for task allocation and reallocation, improving efficiency in international patient claim processing .
- Enhanced application performance and scalability by optimizing page load behavior, implementing Redux for state management, and integrating frontend components with backend REST APIs in an agile development environment .

Smart Autism Detection and Risk Assessment System | Python, TensorFlow, Google colab, , MongoDB , React

- The main objective of this project is to detect and assess Autism Spectrum Disorder (ASD) in children using audio and video-based behavioral data. .
- The system analyzes how a child speaks, reacts, and expresses emotions through machine learning models to determine whether they are at low, medium, or high risk of autism.

Training / Activities

- Completed an online “Full Stack Development (MERN)” course conducted by Novitech R&D Pvt Limited.
- Earned a Data Structure and Algorithm certification from “Finest Coder.”
- Completed a value-added course on Java programming.

Workshops & Hackathons

- Participated in a hackathon at Bannari Amman Institute of Technology, gaining valuable experience in collaborative development.
- One-day Workshop on Cybersecurity conducted by Bannari Amman Institute of Technology (BIT).
- Workshop on Web Development conducted by Altalya Solution.
- Participated in a Paper Presentation at KGISL Institute of Technology.

Achievements

- Acted as Student Coordinator for a “12 Hours National Level Hackathon Code Thugs 2K25” conducted by our Department.
- Represented Jai Shriram Engineering College in the University-Level Cricket Match as part of the official college cricket team, demonstrating strong collaboration and competitive skills.
- Led a hands-on “SQL” workshop for junior students, focusing on core concepts such as queries, indexing, and performance optimization.

Declaration

I hereby declare that the above information is true to the best of my knowledge and belief.
